-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 03 March 2008.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Information Disclosure Statement***

The information disclosure statement filed February 29<sup>th</sup>, 2008 has been reviewed and a copy including the examiner's notation is attached for the Applicants records.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 references "the time service", this reference however lacks antecedent basis within the claims. Presently this reference to a time service is understood to be a typographical error and instead intended to read "the accounting service" in light of the remaining claim presentation.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3714

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-26 are rejected under 35 U.S.C. 102(e) as being anticipated by Gatto et al (US 6,908,391).

Claims 1-6 and 14-19: Gatto teaches a gaming apparatus and method for providing accounting and auditing features in a gaming environment.

The invention of Gatto further includes:

publishing the availability of an accounting service on a network;

receiving a discovery request for the accounting service;

registering by a game client/machine (Figure 3) with the accounting service; and processing one or more accounting service requests between the gaming client and the accounting service in compliance with a Web Services Description Language (WSDL) and a UDDI registry (Col 15:22-16:11).

In addition to the above Gatto further teaches:

the inclusion of client gaming devices for providing game results responsive to the placement of a player wager (Col 5:24-37);

an accounting service for maintaining a central store player accounts (6:35-37, 7:40-45, 8:26-31); and

a discovery agent and authentication agent for determining if all components are authentic and authorized (Col 9:66-10:63, Audit Engine, Certificate Authority, Authentication Engine).

The claimed transmittance of accounting services to a discovery agent is understood to describe the utilization of a UDDI registry in combination with the Audit Engine, Certificate Authority, and Authentication Engine cited above.

The claim limitation of associating the requests associated with meter information for at least one gaming machine is understood to be met by Gatto as the meter/account information of Gatto is stored on a central server and hence associated with all game machines connected to the network.

**Claim 7 and 20:** Gatto further teaches gaming clients or peripherals serve both as service requestors and service providers (Col 15:15:57-67).

**Claims 8-13 and 21-26:** Gatto teaches the use of the use of the web services technologies as taught above as incorporated into a cashless gaming device wherein the accounting and auditing services are initiated with a player identification at a game client from a start request as so claimed, conducted through the player's interaction with the client, and terminated when the player leaves the machine (Col 6:19-23, 6:35-37, 7:10-16, 9:66-10:65). As presented this correlates to the claimed request for the accounting service initiation, request for accounting service termination, and the posting/updating of accounting information reflective of game play.

### ***Response to Arguments***

The Applicant's arguments submitted February 29<sup>th</sup>, 2008 argue the proposed novelty of a discovery agent for determining if an accounting service is authenticated and authorized however this claim language appears to reference components of Gatto in a collective fashion as cited in the rejection above. Further the Applicant argues that Gatto fails to teach the transmission of service information from an accounting service to a discovery agent however it is unclear why the Applicant believes this feature to not be part of the UDDI services taught by Gatto and cited above.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
